

ENVIRONMENTAL POLICY

Screwfast Foundations Ltd is committed to the care of the environment and the prevention of pollution. Screwfast acknowledges our responsibility to ensure that all our operations are carried out with the minimum adverse affect on the environment.

Screwfast Foundations Ltd is committed to:

- Minimising the negative impact of its activities on the environment in the delivery of our services and our choice or use of resources.
- Complying with, and where appropriate exceeding the requirements of all relevant environmental legislation, statutory instruments, guidance and codes of practice and where no such external regulation exists to setting its own exacting standards.
- Introduce and maintain an Environmental Management System which conforms with ISO 14001
- Reviewing our practices, procedures and services continually, to improve our performance.
- Advising our clients and others on the reduction of environmental impact and engaging our suppliers, associates, and clients in environmental initiatives and best practice.
- Maintaining up to date knowledge of and complying with relevant environmental legislation and regulations.
- Development and implementation of environmentally friendly and economically sustainable technology from design and manufacture through to distribution, transport sale and installation.
- Improve the efficiency of our operations by monitoring our consumption of energy and resource, and reducing, reusing or recycling waste materials.
- Minimise, control and as far as possible Prevent the release of pollutants or other substances to air, water or land.
- Communicating this policy to our employees, associates, suppliers, clients and other parties in our literature and proposal documents.
- Training and updating our staff on this policy and related environmental issues.
- Reviewing this policy and our delivery of it continually against our corporate objectives and developments in environmental issues.

Signed:

Daniel Dye
Managing Director
